William Puckett
2011 108th Avenue SE
Bellevue, WA 98004

Mr. Puckett:

Please make this last time you contact me, it is not your fault however, I find

It impracticable to continue this quest, however, I will answer your last "3"

Questions.

1. The airport was a very small privet facility about 45min. from Adair
Airforce station near Corvallis Oregon.
2. The airport as far as I know was privet airport for small planes,
And is the same one I landed on when I was first station at the
Air base, all I found when I landed there was a small building with
a phone.
3. The aircraft was a small two-engine plane like a beechcraft, however,
And as far as I know we flew over land, never over the water and was
A very long flight, I am not sure exactly what direction it was, it was
Dark, the only thing I do know is that we never flew over water.

I hope this helps you and I am so sorry that I can not in the future be of help

To you, however, I wish you all the luck, you will need it!

Yours truly
