

December 10, 2002

Mr. William Puckett  
2011 108<sup>th</sup> Avenue SE  
Bellevue, WA 98004

Dear Mr. Puckett,

**I received your letter dated November 25, 2002; I thank you for your concern.**

**First I want to thank you for your perceptiveness in honoring my request to remain anonymous. You may feel it to be unsubstantiated to feel the way I feel, however, I know that there is a way that my revelations to you are known to some one that I do not want to know.**

**How would my revelations to you be any help to me when you are the only one that knows about them, also I want you to know that I have shredded all of my documentations that if any one would try to find them, they would not be able to locate them, and that includes your letter and this letter will be dilated from my computer and your letter put through the shredder. Is this paranoia, possible, however, better safe than sorry.**

**I hate to be the one the tell you this, however, the U.S. Government likes for you to be out there because they try to use you and to make you out to have a fascination that in its self will discredit you.**

**In my case, I am an ex Government Air force Photographer, and I had a Crypto clearance and promised never to reveal my knowledge, and I have.**

**My cooperation in this matter is because I am now 60 years old and almost 61, I almost died four years ago with a brain aneurism and I felt I could not go to my grave with out some one knowing, even my wife of 36 years does not know of my communication with you, I ask you if you ever write me again, please do so after Jan. 15 when my wife is not on vacation.**

**My wife has seen the photos of the aliens, and I even fear for her.**

**I am obliged for your alliance and your support in exposing the truth about the extraterrestrial conspiracy and I want badly for you to succeed.**
